

66-386

28 January 1966

The Honorable Stuart Symington
United States Senate
Washington, D. C.

My dear Senator Symington:

Thank you very much for the delightful lunch yesterday and the opportunity it gave me to talk with you and to become better acquainted with the gentleman I have heard so much about from mutual friends over the years.

In connection with our conversation about Soviet forgeries, I wanted to be sure that you did not miss the item in the Congressional Record introduced by Senator Hickenlooper a couple of weeks ago. Mr. Hoover's letter, as you will note, refers to the work done by the Agency in exposing the Disinformation Department of the KGB.

I have also taken the liberty of enclosing some testimony on forgeries which I gave in 1961. In addition, you will find a booklet "Communist Forgeries, 1961 - 1964" which contains more up-to-date material. This has not as yet been placed in the public domain, because inside the Government we have been having something of a problem in deciding how to handle it. Therefore, I am sending it for your personal information.

Thank you again for yesterday.

Cordially,

/s/ Richard Helms
